

# How do I copy the program from one computer to another?

Authored by: **Robert Hudson**

Saved From: <http://tmsware.com/support/kb/article.php?id=4>

---

## Step 1)

Install the program on the other computer. Follow the Download link on the main web site  
<http://www.tmsware.com>

## Step 2)

Copy over the data file CLMData.dat

The data file is located in %AppData%\CLM Explorer

If you have trouble locating this file, see this link here: <http://tmsware.com/support/kb/article.php?id=5>

Copy the data file to a USB drive, floppy disk and transfer it to the target computer. Or email it,

## Step 3)

Make a note of your registration key. Click Help >> Registration on the top menubar.  
Copy this into the application on the new pc.
